

Montreal Process Technical Advisory Committee

Convenor's report 2010-2011

Dr Tim Payn TAC Convenor

Role of the Technical Advisory Committee

- The TAC activities are directed by, and reported back to, the Montreal Process Working Group
- The TAC provides recommendations and advice to the MPWG on scientific and technical issues related to the measurement, monitoring, and reporting on sustainable forest management under the C&I framework.
- The TAC is task-oriented, informal and technical in nature and works between MPWG meetings to address both MPWG-assigned tasks and technical issues of common interest to the MPWG.

2010 – 2011 Report to Montreal Process Working Group
